Product description

Fit-Crock Special Beef is designed to meet the needs of dogs who, due to their race or illness, prefer a low-purine nutrition. Especially for this purpose we completely relinquish yeast and rounded the composition wholesome.

.

Fit-Crock Special Beef offers the complete package of high-quality dry feed in cold-pressed form, free from artificial additives and synthetic vitamins. Beef provides our beloved four-legged friends with important proteins.
We deliberately avoided wheat and maize. Instead, we only use potatoes and oats to support optimal energy supply with stable blood sugar.
Carrots are not only particularly digestible, they also supply B vitamins, iron, folic acid, magnesium, calcium and phosphorus.
Together with the digestive tract-supporting properties of Jerusalem artichoke results in a balanced meal, which - as always - in **cdVet** is supplemented and rounded off by herbs. In order for the nutritional profile of your dog to be round and coherent, cdVet pays particular attention to the quality of the ingredients. So we use only the best products in gentle cold pressing. Therefore, it is not necessary to enrich the feed with synthetic. Pure nature - from the first to the last bite.
