

COLUMBAVet Probiotic 500 ml | 500 ml

Manufacturer

Product number 2476
Weight 0.5kg
Length 76mm
Width 76mm
Height 161mm

Product description

Complementary feed (liquid, fermented) for pigeons

Feeding-related support of the intestinal flora

Due to dewormings, vaccinations, antibiotic administrations, in stressful situations, or due to unbalanced and incorrect feeding, the natural intestinal flora can be impaired, and it can lead to a faulty colonization of the intestinal mucosa. To counteract this condition nutritionally-related, **COLUMBAVet Probiotic** has been developed.

For the production of **COLUMBAVet Probiotic**, wild and spice plants are fermented together in a natural process. During this fermentation process, the probiotic microorganisms multiply and produce substances that are so valuable for the pigeons, such as f.e. lactic acid, antioxidants, enzymes, and vitamins. At the same time, through this special mixture of, among other things, valuable lactobacilli, the pH value in the digestive tract can be regulated and the development of pathogenic bacteria naturally reduced.

When is the feeding of COLUMBAVet Probiotic particularly important?

- After dewormings
- After vaccinations
- After antibiotic administrations
- In stress situations
- In young animals after weaning from goiter's milk
- During travel
- During breeding
- During molt

Composition: stinging nettle, echinacea, hibiscus, oregano, peppermint, stevia, fenugreek seed, ribwort plantain leaves, licorice root, yarrow herb, wormwood herb, marshmallow roots, thyme, Chinese rhubarb root, anise, fennel, raspberry leaves, cowslip roots, aronia berries pomace, spiny restharrow roots, rosemary leaves, sunflower blossoms, rock salt, sugar cane molasses

Analytical constituents: crude protein 0.2%, crude fiber 0.2%, crude fat 0%, crude ash 0%, moisture 98.3%, sodium 0.031%

Feeding recommendation: In case of acute need and at the first feeding 5 ml/kg feed or 2 ml/L drinking water, at regular feeding 1-2 x weekly.

Protect from frost and heat! **COLUMBAVet Probiotic** keeps only for 3 days, when it has been mixed into the feed!
