Singulares Algae Oil 50 ml | 50 ml

Manufacturer	singulares
Product number	2355
Weight	0.046kg
Length	36mm
Width	36mm
Height	95mm

Product description

Feed material for dogs, cats. and horses

A high-quality source of omega-3 derived from the power of microalgae (*Schizochytrium* sp.)

Many people are familiar with omega-3 fatty acids primarily from fish oil. In fact, the valuable fatty acids **DHA (docosahexaenoic acid)** and **EPA (eicosapentaenoic acid)** originally come from microalgae. Fish simply obtain them from their food.

DHA and **EPA** are important components of an adequate omega-3 intake. **DHA** is a natural component of cell membranes and plays an important role in the normal functioning of the brain and eyes. **EPA** supports a balanced intake of long-chain omega-3 fatty acids and provides a valuable supplement to the daily feeding.

Singulares Algae Oil is a high-quality, plant-based source of omega-3 (up to ca. 65%) for dogs, cats, and horses. Derived from the microalgae *Schizochytrium* sp., it provides the essential omega-3 fatty acids **DHA** (up to ca. 40%) and **EPA** (up to ca. 20%) directly from the original source - without any fish. Whether for puppies, adult dogs, cats, or horses, **Singulares Algae Oil** supplements their daily diet in a natural way and is suitable for animals of all ages.

More and more pet owners are prioritizing high-quality nutrition for their pets. **Singulares Algae Oil** offers a modern, fish-free source of omega-3 and is ideal as a daily dietary supplement. Thanks to its liquid form, **Singulares Algae Oil** is easy to measure out and mix into your pet’s feed. This ensures your pet receives a high-quality, plant-based omega-3 supplement containing **DHA** and **EPA**—day after day.
