Product description

The mucus-forming ingredients of HustaVet BronchialVital protectively cover the affected respiratory tracts and support the body's own defense mechanisms. At the same time, the irritation of the cough is soothed and reduced. In addition, the essential oils contained in the herbs and the pure honey ensure a gentle dissolution of stuck mucus, make it difficult for pathogenic bacteria to settle there, and thus facilitate the natural process of coughing up.

The contained honey also stimulates the appetite and provides the animal with energy. HustaVet BronchialVital is tolerated by animals of all ages and can be mixed into the food without any problems due to its high acceptance.
