

CalcioREPTIN 250 g | 250 g

Manufacturer 

Product number 234

Weight 0.25kg

Length 67mm

Width 67mm

Height 119mm

Product description

CalcioREPTIN is a high quality mineral feed with calcium and magnesium to support the bone structure and horny scales of reptiles. The high mineral content and the wide range of trace and micronutrients can prevent deficiency symptoms. Accordingly, it can also be given as an accompanying feed in problem cases such as rickets, for the strength of the horny scales (e.g. turtle shell). CalcioREPTIN is particularly well tolerated because it is a pure natural product without synthetic additives. CalcioREPTIN and MicroREPTIN complete are an optimal combination to provide a natural supply of micronutrients, trace elements and vitamins.
