Manufacturer

Product number	1230
Weight	0.1048kg
Length	40mm
Width	40mm
Height	132mm

Product description

Care product for animals

Care product based on herbs with CBD oil for supportive care in the joint area, cooling and soothing

Whether it is the rampaging and playing young dog that falls over its own paws every now and then, or the young foal that cuts a caper in the paddock, or the elderly senior who can't quite get out of his basket or box in the morning. The joints have to do a lot, and every now and then they also have a bad day, and need a little bit of our support. Then how about a supportive, soothing care from the outside. **CBD Joint Gel** is easy to apply, and a boon for tendons, ligaments, and joints.

Dogs with MDR1 gene defect: There are no reliable studies on the tolerability of CBD products regarding dogs with MDR1 gene defect. We therefore recommend **ArthroGreen Joint Gel** as an alternative.
